Hospital-Quality Bed Systems

Hill-Rom’s full-featured medical bed systems offer comfort for your loved one and intuitive controls to help caregivers effectively and easily operate the systems to their fullest capacity.

VersaCare® Bed System
- Low height helps facilitate seated transfers
- One-button low chair position feature
- VersaCare® P500 surface offers Turn Assist function, “Always On” wound therapy and Max Inflate mode
- FlexAfoot™ bed extender

CareAssist® ES Bed System
- Line-of-Site® angle indicators for degree of head section and Trendelenburg and Reverse Trendelenburg
- Dining Chair® position with one button for patient comfort
- Shearless Pivot® mechanism with Auto Contour™ feature
- Flat deck bed frame accepts almost any surface
Spend less time operating the bed and more time caring for your loved ones.
High Acuity

TotalCare® Connect Bed Series

Designed by caregivers, the TotalCare® Connect bed is exceptionally easy to use. Clean, simple controls and a large, colorful touchscreen on the siderails give caregivers the power of touch at the point of care.

TotalCare SpO₂RT® 2 Surface

- Continuous Lateral Rotation Therapy and Percussion and Vibration therapies
- FullChair® mechanism
- Integrated air surface automatically adjusts according to patients weight, body type, movement and bed position
- Integrated scale, bed exit and a battery backup

Physician’s order required.
Bariatric Integrated Systems

These bariatric adjustable beds, in conjunction with established mobility protocols from a physician, provide advanced mobility and flexible wound therapies.

TotalCare® Bariatric Plus System

- Continuous Lateral Rotation Therapy and Percussion and Vibration therapies
- 500 lb weight capacity with 40” width surface
- Integrated air surface automatically adjusts according to patients weight, body type, movement and bed position
- Integrated scale, bed exit and a battery backup

Tri-Flex™ II Bariatric Bed

- Surface offers low air loss and alternating pressure to aid in the prevention and treatment of pressure ulcers
- Expandable width frame and surface adjusts from 37-48 inches
Home Care Bed Frames

Hill-Rom® Home Care beds are fully electric beds that specialize in safety and simplicity. They combine warmth and style with essential patient care features—all in a bed that’s easy to operate.

Steps to Home Delivery

Hill-Rom receives requests for product placement from a variety of sources including discharge planners, home care agencies, physicians, clinicians, facilities, payor sources, caregivers and patients themselves.

Step 1
Contact Hill-Rom at 800-833-4291 if you are interested in purchasing products.

Step 2
Hill-Rom patient advocates are available to discuss product options and assist in the selection of appropriate products.

Step 3
Hill-Rom will help identify documentation needed for placement and work with health care teams to collect the documentation. Examples include:
- Physician orders
- Statements of medical necessity
- Clinical records

NOTE: Documentation requested varies based on product and payor requirements.

Step 4
Hill-Rom will verify insurance and seek authorization from payor sources (where authorized and subject to payor requirements).

Step 5
Hill-Rom will schedule product delivery and training.
- Confirm delivery date and time
- Train patient and caregiver on product usage
- Follow-up with patient and caregiver to ensure product satisfaction
Hill-Rom is a leading global medical technology company with more than 7,000 employees worldwide. We partner with health care providers in more than 100 countries by focusing on patient care solutions that improve clinical and economic outcomes in five core areas: Advancing Mobility, Wound Care and Prevention, Clinical Workflow, Surgical Safety and Efficiency, and Respiratory Health. Around the world, Hill-Rom’s people, products, and programs work towards one mission: Enhancing outcomes for patients and their caregivers.
